Randy,

The price for the WR-141's is \$60.00 each.

thanks...

According to the drawing that I was sent, the waste receptacle needs to be out from the wall by 9-1/2". Randy, the WR-141-200 is 12-1/2", I think that would be your best option.

Randy,

Attached is a copy of the technical data sheets for our wall mounted waste receptacles. Let me know which one will work for you and I will get you prices for these. They normally only have 2 holes for mounting but you can add additional holes easily.

thanks...
