Contractor Request

Request Submitted By: Jon Buddingh 06/10/2025

Request: The plan sheets do not call for any infill of framing of the front wall above the vestibule. This is at (approx) column line 3.75-5. This area is open to structure, and is recommended to infill with new metal studs, insulation and drywall.

Suggestion: Please advise.

Response

Response By: Matt Andrus 07/16/2025

Response: This area of the wall should be infilled with new metal studs, insulation, and gyp board as indicated above.
